From P.

Hi

I got a response from M. today. She is very grateful for your prayers.

From M. Translation by P.

Dear P.

I am very much touched by the message announcing the novena prayer made for us by your mom's group that reassures me that God is with us. I understand that if I can endure the many trials of the apostolate it is thanks to your mom's prayer and her team. I do not feel tired, my heart is always on children in distress. I understand that it is the grace that God gives me because of this prayer made for us. *(P. "I know what to say"—I don't understand this part)*

At the moment I am very busy preparing for the start of the school year for the children and at the same time we are organizing the children's promise ceremony.

The security/safety is more or less passable. During the day people move about without problems.
