Hi Mom,
I hope that your week is going well.
Yesterday, I received this message from M:
Please let me know if you would like to send her a message.

Love,
P.

Dearest P

I greet you and I write to mom to tell her that we are in good health. The war situation has calmed down, but some people are still in the displaced person sites. We are at home and we also work in the fields.

Monsignor the bishop also opened the church, house has 6 masses in order to respect the recommendations to protect against corona virus.

In any case there are no worries, my concern is for you, but let us carry everything in prayer. May the Lord bless each of you.

Thank you in union of prayers

From M.
